

Ali Ramah Ramadan Ali

Network Security, Mobile Network

Personal Information:

Address: Egypt, Giza, King Faisal St.

Phone: 0114 365 1707

Email: aliramah52@gmail.com

LinkedIn: [linkedin.com/in/ali-ramah/](https://www.linkedin.com/in/ali-ramah/)

Portfolio: aliramah.github.io/

Military Status: Final exemption

Marital Status: Single

Summary:

Enthusiastic and motivated fresh graduate Communication Engineer with a strong interest in networking, network security and mobile networks. Seeking an entry-level opportunity to apply hands-on experience gained through practical training, contribute to real-world projects, and grow professionally in the networking field.

Education:

**Helwan University, Faculty of Engineering
Communication and Electronics Department.**

Graduation year: 2026.

Cumulative Grade: Very Good 79.2%.

Training Experience:

CCNA 200-301

Jelecom

July 2024 – August 2024

As part of my practical CCNA training at Jelecom Academy, I worked as a trainee for 80 hours to gain hands-on experience configuring and troubleshooting real Cisco routers and switches.

Implemented routing protocols such as Static, RIP, OSPF, and EIGRP.

Worked on real-life networking scenarios involving VLANs, NAT, Subnetting.

Used real physical lab equipment to simulate small to medium-sized enterprise networks, applying the concepts that were studied in a controlled environment. Performed 20+ lab scenarios.

Network Security

NTI

July 2025 – August 2025

As part of my practical cybersecurity training, I performed network scanning and analysis using Wireshark, Nmap, and OWASP ZAP configured site-to-site VPNs, deployed Zone-Based Policy Firewalls, Access Control Lists, AAA.

Additionally, I handled remote device management via Telnet and SSH.

O-RAN

ITI

August 2025 – September 2025

Gained practical knowledge and hands-on experience with mobile networks including 2G (GSM), 3G, 4G, and 5G NR, as well as Open RAN (O-RAN) technologies. Gained experience in Linux system administration, managing and configuring servers and network services in practical lab environments.

Certificates and Internships:

CCNA 200-301	Jelecom Academy	80 hours
Network Security	NTI	120 hours
ORAN	ITI	162 hours
2G/3G/4G/5G	Udemy	76 hours
2G Optimization	Udemy	12 hours
Massive MIMO	Udemy	12 hours

Hard Skills:

- Git
 - Automation
 - Python
 - Virtualization
 - SDN
 - Linux
 - MATLAB
 - Atoll
 - Microsoft Office (Word, Excel)
-

Soft Skills:

- Teamwork
 - Communication Skills
 - Creativity
 - Flexibility
 - Problem Solving
 - Time Management
 - Work under Pressure
-

Languages:

Arabic: Native

English: Advanced
